## Herb Mixture Dispensing Service

Scripts should be faxed on letterhead or script paper of the prescribing practitioner and their contact details

Details required are:

- the amounts of each herb per 100ml
- the dispensing volume (50, 100, 200, 500ml)
- the dose in ml or drops
- administration particulars (number of times per day, before or after meals...)
- duration of treatment

We may need to contact your practitioner to discuss the script
